STRONG LOCAL PARTNERS

Identify strong local partners to handle local issues and ensure smooth execution of the projects

END TO END DEAL UNDERWRITING

Experience in various cycles of Real Estate has enabled us to look at investment end to end and ensure successful exit of the investor.

INHOUSE EXPERTISE

Inhouse expertise in various areas such as legal, liasoning and construction enables us to screen deals extensively.

LONG TERM STRATEGY

Originate, structure, and execute real estate transactions with focus on alignment with investor's strategic goal, long term value creation with each transaction offered as an independent, fully underwritten opportunity.

Operational Investor

Involved in the execution of the project with hands on approach to ensure smooth execution and exit of investors

Tenure & Ticket Size

Invest in projects with tenure of 3 – 4 years and having investment ticket size of Rs. 50 to Rs. 100 Crores

Diversification

Invest in different asset classes across multiple cities

Holistic Investment Approach

Identify the micro markets and asset class having favorable risk to return ratio

Identify and screen deals in the micro market/ asset class

EVOLVING BEYOND TRADITIONAL STRUCTURES

Investor interactions revealed clear and consistent expectations that went beyond what a traditional AIF structure offers:

Direct Asset Visibility Rather Than Blind Pools

Investors want to see and evaluate the underlying asset before committing capital, rather than investing blindly into pooled structures

Clearer Exit Timelines

Investors expect defined exit pathways meeting his investment horizons

Flexible Investment Cycles

Preference for flexible tenures instead of traditional blind pool commitment with locking period.

Success-Linked Fees

Growing demand for performance-based compensation instead of fixed asset management charges regardless of outcomes

TAILORED INVESTMENT EXCELLENCE

Landmark operates a deal-by-deal, client-aligned investment model that empowers sophisticated investors to select opportunities precisely matching their risk profile, return expectations, liquidity requirements, and thematic preferences. We've deliberately moved beyond rigid fund structures to deliver transparency, flexibility, and superior investor participation.

Flexible and Tailormade Structuring

Every transaction is uniquely architected to align with your specific requirements and the distinctive characteristics of each asset.

Unrestricted Opportunity Access

We're not constrained by asset class, geography, or fund mandates—delivering broader market access and diversification potential.

Enhanced Visibility & Control

Evaluate each opportunity independently with full transparency, building a customised allocation strategy tailored to your objectives.

India-Wide Investment Reach

Access opportunities across diverse asset types and locations throughout India, selected purely on merit and potential.

Our Investment Philosophy: Three Core Pillars

Value Enhancement

Strategic asset optimisation and active management to unlock superior returns through operational excellence.

Simplicity & Discipline

Focus on fundamental investment principles over complexity, ensuring clarity and robust decision-making.

Client Alignment

Tailored opportunities designed around your goals—not standardised templates or one-size-fits-all solutions.

Our commitment is straightforward: present the most attractive investment opportunities whilst remaining unwaveringly aligned to your specific objectives and success criteria.

INVESTMENT PROCESS

01

Deal-by-Deal Investment

We present curated opportunities with clear geography focus, sector focus, market cycle alignment, and detailed investment thesis.

02

Investors Validation for Each Transaction

Every deal is presented transparently with full financial, risk, and asset clarity, enabling investors to independently evaluate and approve each transaction before committing.

03

Direct Insight

Tailored structure, full investment visibility, comprehensive due diligence, deal-level performance reporting, zero upfront fees (only success-based profit sharing), and regular progress updates.

04

Exit Execution

Defined exit strategies with multiple pathways—strategic sale, secondary stake sale, refinancing, or asset monetization—ensuring timely liquidity and value maximization.

INVESTOR VALIDATION

How Feedback Confirmed Our Direction

Across the three executed transactions, investors consistently appreciated the fundamental attributes of the model that differentiate it from traditional structures. The feedback wasn't merely positive—it was actionable validation that informed our decision to scale this approach.

- **Transparency of Participation**
Clear visibility into specific projects before commitment
- **Defined Tenure**
Known investment horizons rather than open-ended commitments
- **Strong Documentation**
Comprehensive legal frameworks and security structures
- **Structured Security**
Multiple layers of capital protection and recourse

This successful pilot phase gave us the conviction to scale the model and open it to a broader investor base. We launched a **Deal-by-Deal / Transaction-Only** Investing Model under the entity Landmark, maintaining the same diligence, governance, and rigor of our AIF work.

THREE ROUTES TO PARTICIPATE

LVF (AIF Category II)

Investors commit capital into a SEBI-regulated Alternative Investment Fund. The fund subsequently invests into project-level Special Purpose Vehicles, maintaining regulatory compliance and pass-through status.

For Larger Ticket Size

- ☐ SEBI-regulated pathway for Accredited Investors, UHNIs, Multi-Family Offices, and global capital
- ☐ Investments will be made through an SPV.
- ☐ Equity positions will be taken by Landmark in each structure.
- ☐ Large Ticket Size > 25 cr
- ☐ Tenure – 3 to 4 years
- ☐ Suitable for HNIs, Family Offices, Institutions.

AI Only Fund

AIF exclusively for Accredited Investors with relaxed norms and flexible private market structuring.

For Flexible Ticket Size

- ☐ SEBI-regulated AIF exclusively for Accredited Investors with relaxed regulatory norms.
- ☐ Investments will be made through an SPV.
- ☐ Flexible ticket size (no ₹25 cr minimum like LVF).
- ☐ Structured capital deployment with customized return frameworks.
- ☐ Tenure – 3 to 4 years.
- ☐ Suitable for Sophisticated HNIs, Emerging UHNIs, and Family Offices seeking institutional governance with flexibility.

Direct SPV Route

Investors receive direct allotment of investment instrument in deal-specific SPVs, creating a more direct investment relationship.

For Customised Solutions

- ☐ Investors participate through a SPV, created for each deal.
- ☐
- ☐
- ☐ Pre-defined:
 - Returns
 - Security structure
 - Tenure (3 to 4 years)
- ☐

LVF: REGULATORY FRAMEWORK & STRATEGIC ADVANTAGES

Large Value Funds represent a premium institutional-grade vehicle within India's Alternative Investment Fund ecosystem, specifically engineered for sophisticated investors pursuing concentrated, high-conviction exposures in private markets. The regulatory architecture combines strategic flexibility with robust investor protection standards.

Accredited Investor Gateway

Annual income $\geq$ ₹2 Cr or Net Worth $\geq$ ₹7.5 Cr (minimum 50% in financial assets)

Reduced Entry Threshold

Minimum investment lowered from ₹70 Cr to **₹25 Cr per investor** (2025 reform)

Enhanced Concentration Limits

Deploy up to **50% in single company** vs. 25% standard AIF limit

Flexible Tenure Structure

Extension capped at 5 years with 2/3rd investor approval requirement

Strategic Positioning

Recent SEBI reforms have deliberately positioned LVFs as the preferred structure for large-ticket institutional allocations across private equity, real assets, structured credit, and complex strategic opportunities. The relaxed compliance framework enables fund managers to:

- Execute high-conviction investment theses with concentrated exposures
- Deploy capital efficiently without standard diversification constraints
- Operate with streamlined governance whilst maintaining transparency obligations

WHY DEAL-BY-DEAL MODEL WORKS

Landmark enables an investment experience that is flexible, transparent, and aligned with investor interests. Each transaction is executed through a dedicated SPV—ensuring no cross-deal exposure—backed by rigorous diligence and hands-on asset oversight. The model offers flexible commitment sizes, off-market origination, structured security, clearly defined hold periods, and zero upfront fees. Profit participation occurs only when investors profit.

Deal-Wise Capital & Structuring

No blind pools—capital is deployed per transaction via standalone SPVs, JVs, or Trusts tailored to each asset.

Flexible Commitment Sizes

Invest at scales that suit you—from mid-sized opportunities to marquee projects—without arbitrary ticket-size floors.

Proactive Origination

Off-market, megatrend-aligned assets (logistics, data centres, green housing, etc.).

Agile Liquidity & Exit Planning

Clearly defined hold periods, pre-set exit windows, and transparent pathways ensure timely liquidity.

Better Risk Management

Investor has better appreciation of risk when investing in a deal compared to a blind pool.

Profit-Sharing Alignment

Zero upfront fees—our managers earn only when a deal closes profitably for you.

Rigorous, Hands-On Management

End-to-end due diligence (title, technical, commercial, ESG) plus active asset oversight and value creation.

Full Transparency

Deal-level P&L statements, real-time dashboards, and be-spoke reporting keep you informed at every stage.

Tactical Agility

Quickly capitalize on emerging themes.
